COMING IN JUNE 2018

ST5

+STROMER-

DRIVEN BY PERFECTION

KEYLESS

- Electronic unlocking and locking of the battery cover at a touch
- Key no longer required

SEAMLESS LOCKING AND UNLOCKING

You can also lock and unlock your Stromer via the Bluetooth function on your smartphone.

- Automatic locking when you walk away from your e-bike
- Automatic unlocking when you approach your e-bike
- No hunting for keys
- No PIN input
- e-bike is always perfectly secure

SECOND SCREEN

With the ST5 you can incorporate a second screen in addition to the touchscreen that is integrated into the top tube of your Stromer: your smartphone.

- Larger screen
- Comfortable and secure position on the handlebar
- Additional information

ABSOLUTE SYSTEM INTEGRATION

- Clean handlebar
- Practically free of cables

RIDE CONFIDENCE

More safety, more stability, more agility thanks to:

- The frame geometry attuned to the 27.5" wheels
- The high-performance Cycl-e tires developed exclusively with Pirelli
- The powerful Stromer brakes

MORE POWER

With impressive grip and confident smoothness, the new top model provides effortless assistance up to 45 km/h – and does so with a range of up to 180 km.

- Newly developed «SYNO Sport» motor with 850 watts and a torque of 48 Newton meters
- New Sport mode that provides even more power at the push of a button

SPORT MODE

The new sport mode delivers even more power at the press of a button, ensuring a more sporty ride thanks to the enhanced peak output. It allows a 20 % torque boost.
